PRESS RELEASE- FOR IMMEDIATE RELEASE

The City is currently undergoing an emergency well repair that is primarily affecting the west side of the City.

Residents in that area may notice rusty or discolored water from elevated iron levels. Although the water is discolored, it is still being tested by DHH and is safe to drink, but it may stain laundry. The City is offering a stain remover product at no cost at the following locations:

- City Hall, 101 N. Huntington
- Water Plant, 119 East Verdine Street

We assure you that we are making every attempt to keep these impacts to a minimum. If you have any questions or concerns, you can call City Hall at 337-527-4500.
