PRESS RELEASE- FOR IMMEDIATE RELEASE

As Waste Management begins garbage services in Sulphur next week, Republic Services will still be picking up the trash containers they provided. Until this process is complete, please only put one Republic provided blue container out. If you put two blue containers out and both are taken, it will be your responsibility to contact Republic Services to replace the bin you previously purchased. If you would like an additional container through Waste Management, you can lease one for a one-time fee of \$75.
