Entergy's Planned Outage

Entergy is currently working on a reliability improvement project. They have completed part of this project. Which involved setting a number of new transmission poles, and also line work. **Entergy will be setting a large transmission pole just outside Burton substation on Wednesday, February 2. The planned outage will be from approximately 9:00am to 2:00pm.** The planned outage is necessary in order to do the work safely. Entergy has sent out a notification to the customers who have elected to receive updates/notifications.

If you have yet to receive a notification, please check that all current personal information is up to date and correct. Keeping all communication channels open will be another effective way of receiving future information.

The planned outage will basically be affecting approximately 77 customers in Woodland Terrace subdivision...the following streets.

Woodland St.
Roberta Dr.
Roberta Cir.
Jacqueline St.
Terrace St.
