Press Release – Maintenance at the Verdine Water Plant

Saturday, August 12th, 2023, the Verdine Water Plant will be conducting a routine maintenance project for approximately 2 hours starting at 9:00AM.

The City of Sulphur is issuing a precautionary boil advisory for the affected areas of Northern City limits, south to Arena Road and Kim Street, east to Beglis Parkway as residents in this area may experience low water pressure during this time.

If you were without water in this area, run faucets until water runs clear then take precaution and boil water before consumption.

Boil water for one (1) full minute in a clean container. The one-minute starts after the water has been brought to a rolling boil. (The flat taste can be eliminated by shaking the water in a clean bottle, pouring it from one clean container to another, or by adding a small pinch of salt to each quart of water that is boiled).

The City of Sulphur will notify the affected areas once clear samples have been received from the State Laboratory.

Thank you for your patience during this matter.
