## **PRESS RELEASE - FOR IMMEDIATE RELEASE**

Although the Calcasieu Parish mandatory evacuation order has been lifted, there is still a strain on essential services in Sulphur. We want residents who have not yet returned to be aware that we cannot guarantee that our services, such as water and wastewater, are completely stable. All our city buildings are still operating on generator power and will not be stable until permanent power has been restored to all of our buildings that service the city. Your health, safety, and quality of life in our city is our top priority and we want residents to be aware of the conditions we are still facing when making the decision of when to return home.
