

PRESS RELEASE – FOR IMMEDIATE RELEASE

As of January 14, 2021, the City's contractor has picked up 725,000 cubic yards of debris across the City limits of Sulphur. We are nearing the last pickup of the city for residential hurricane debris removal. At this time, we do not have a specific date the last pickup for residential debris will begin, but we are advising residents to get the remainder of their debris to the public right-of-way as soon as possible. As soon as that date is available, we will update residents as to when the final pass of debris removal will begin. Any debris placed at the right-of-way after this pass will not be collected and disposal will become the responsibility of the property owner.
